SELECTED MIXED GLADIOLI

The bulbs in the mixtures below vary greatly in size, running from one inch to two and a half inches. As they vary in color, they also vary in growth of bulb, and to get the necessary color ranges all sizes must be used. Every bulb is guaranteed to bloom and bloom well.

MIXTURE No. 1. While not all ruffled, many of the best ruffled sorts are represented here, as well as fine plain petaled. No better mixture of large flowered sorts can be bought. Per dozen \$1.25, per 100 \$9.00.

**MIXTURE No. 2.** This is made up of large flowering sorts, mostly plain petaled. Contains a good assortment of the Kunderd sorts, and also of other American and best Holland items also. A remarkably fine mixture for dozen 75c, 100 \$4.50.

**MIXTURE No. 3.** Contains what we have termed "DeLuxe" all Primulinus. This is the result of selecting the best of the Kunderd "Orchid Mixture," now dropped, and adding many named varieties. A better Primulinus mixture is not possible. Dozen \$1.25, 100 \$9.00.

**MIXTURE No. 4.** This, with many additions, is what has been, and is now, sold by many as "Orchid Mixture." Far better than the original "Orchid Mixture." Per dozen 75c, per 100 \$5.00, per 1000 \$40.00.

**MIXTURE No. 5.** For those who want plenty of flowers at a low price, or for seed stores for counter sales. All primulinus, no new varieties, but many medium priced named sorts in it. Price 100 \$3.00, per 1000 \$27.50.

## PRIMULINUS HYBRID GLADIOLI

All Kunderdii

In this section will be found varieties distinguished for the varied and beautiful tints of pink combined with yellow, orange, and saffron. In obtaining these new varieties, the originators crossed the old yellow primulinus or Maid-of-the-Mist with many of the existing strains. Some of the varieties have ruffled petals, some are plain-petaled, and some have intermediate markings. It has been well said that "these new introductions will, for a long time to come, range as the greatest achievements in Gladiolus culture."

	Each	Doz.

# DAHLIAS

Another of our specialties. It would be very easy to offer a collection of 500 sorts. The list below is selected as the best from more than twice 500 for their color, form and free blooming qualities in both northern and southern climates. Those who have "no luck with dahlias" will do well to try them. Many of the finest varieties, especially in the lighter colored cactus and decorative dahlias are a distinct failure in the northern and middle states and more than 200 miles from the Atlantic seaboard. The following list is a survival of the fittest from over 500 varieties and will be found to do well wherever Dahlias can be grown at all. They are carefully rogued of yellow centers and all undesirable traits.

Prices, each and 12 by mail prepaid. Glad to quote per 100 on request.
